Workforce in Global Oncology: il ruolo dell'oncologo medico

Dario Trapani, MD

(@darioT_)

Università degli Studi di Milano – Dipartimento di Oncologia ed Ematologia (DIPO)
Istituto Europeo di Oncologia (IEO), IRCCS, Milano
WHO/ OMS consultant, Ginevra

Who's WHO?

The World Health Organization (WHO) is a specialized agency of the United Nations that is concerned with international public health.

7 April 1948

Headquarter: Geneva

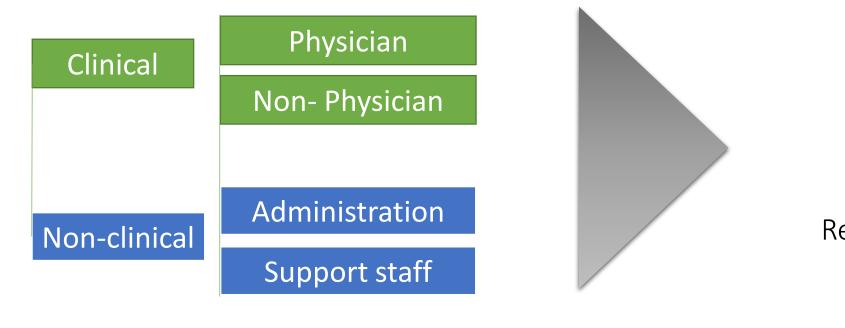

6 Regional Offices

194 Members States

WHO Global Atlas of the Health Workforce

What's Workforce?

"All people engaged in actions whose primary intent is to enhance health"

Vocational Education
Professionalizing Training
Activities and Tasks of jobs
Regulation of health professions

Core Curriculum

The policy environment committing for health workforce

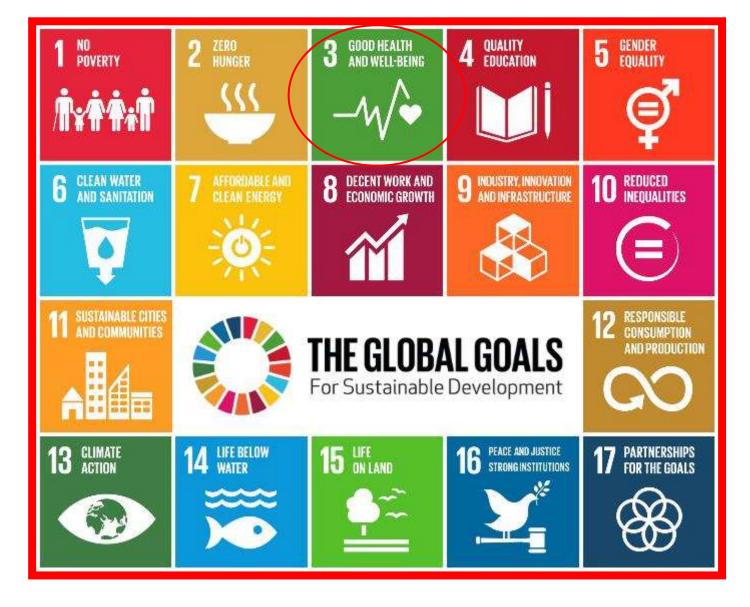

#WHA72 Art Installation – 2019 (UN Palais)

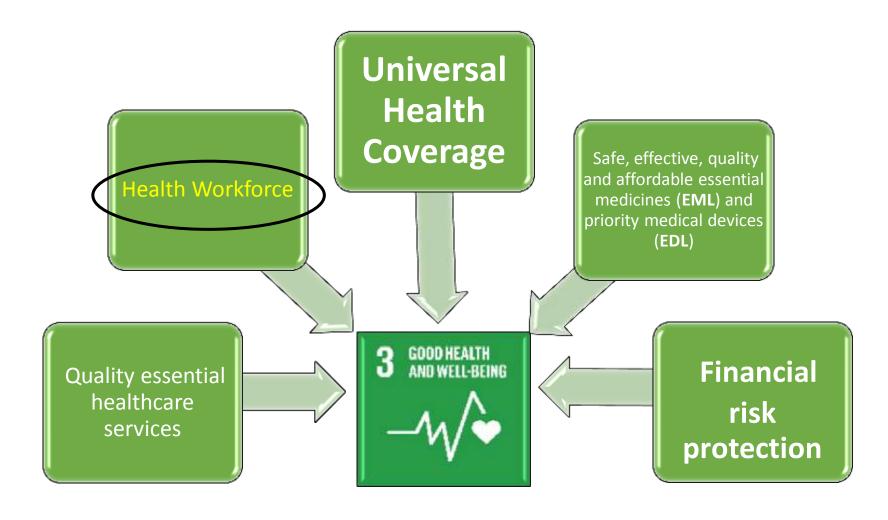

2030 United Nations Sustainable Development Goals (SDGs)

SDG 3: Ensure healthy lives and promote well-being for all at all ages

United Nations Sustainable Development Goal 3: Health

Reduce premature mortality from non-communicable diseases, which include cancer, by one-third by 2030

2016 UN High-Level Commission on Health Employment and Economic Growth: Workforce target is **density** and **distribution**

Health worker density

Health worker distribution

Target 3C: substantially increase health financing and the **recruitment**, **development**, **training** and **retention** of the **health** workforce.

2016 UN High-Level Commission on Health Employment and Economic Growth: Workforce target is **density** and **distribution**

Shortfall of 18 million health workers to achieve the health-related 2030 Sustainable Development Goals

Health worker density

Health worker distribution

Target 3C: substantially increase health financing and the **recruitment**, **development**, **training** and **retention** of the **health** workforce.

SEVENTIETH WORLD HEALTH ASSEMBLY

Is that relevant for cancer care?

Health workforce as a key mandate in the 2017 WHO Cancer Resolution

Urges WHO member states..... to address barriers in access to safe, quality, effective and affordable medicines, medical products and appropriate technology for cancer prevention, detection, screening diagnosis and **treatment** including surgery by strengthening national health systems and international cooperation, including **human resources**, with the ultimate aim of enhancing access for patients, including through **increasing the capacity** of the health systems to provide such access.

2017 Cancer Resolution: Call for Action

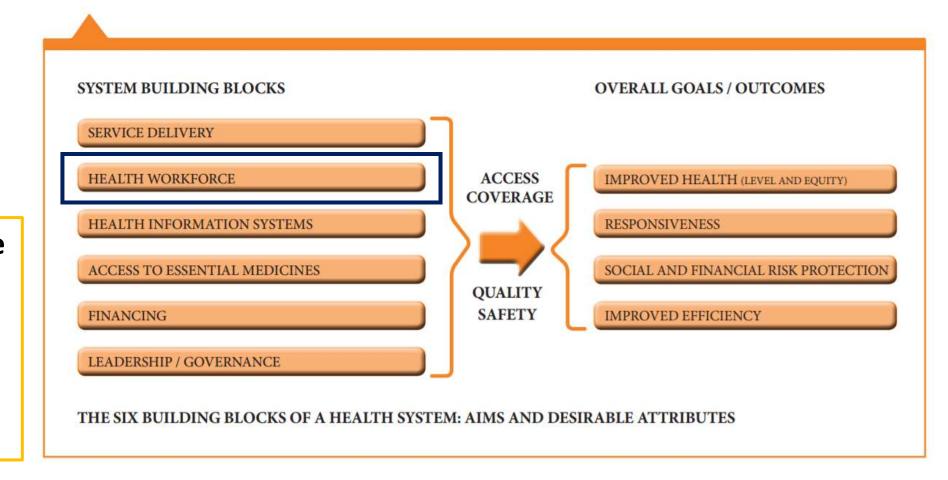

Six building blocks of the WHO Health System

The building blocks are interconnected: the work done in one building block influences that of all building blocks.

What is the state of art of cancer health workforce, on a global scale?

«CANCER IS A DISEASE PLAGUED BY INEQUALITY»

Wild C, former director IARC

Health worker <u>density</u> and <u>distribution</u> - Cancer Workforce:

Medical and Clinical oncologists

(workers per 100 patients)

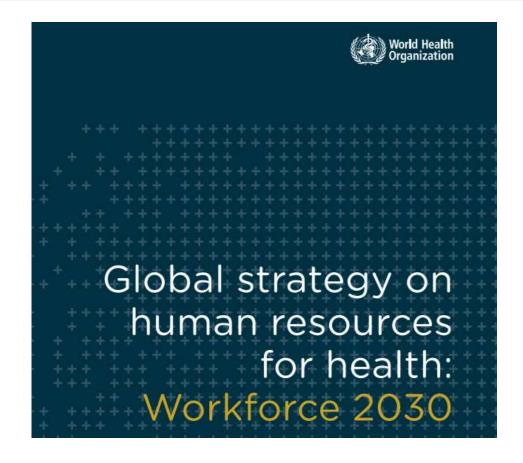

What is the approach of WHO?

Dr Tedros (WHO DG), Rwanda 2018

WHO 2030 Workforce Objectives

To improve health, social and economic development outcomes by ensuring universal availability, accessibility, acceptability, coverage and quality of the health workforce

WHO 2030 Workforce Objectives

Global strategy on human resources for health: Workforce 2030 To improve health, social and economic development outcomes by ensuring universal availability, accessibility, acceptability, coverage and quality of the health workforce

- To optimize performance, quality and impact
 of the health workforce through evidenceinformed policies on human resources for
 health, contributing to healthy lives and
 well-being, effective universal health coverage,
 resilience and strengthened health systems at
 all levels.
 - 2. To align investment in human resources for health with the current and future needs of the population and of health systems, taking account of labour market dynamics and education policies; to address shortages and improve distribution of health workers, so as to enable maximum improvements in health outcomes, social welfare, employment creation and economic growth.
- 3. To build the capacity of institutions at sub-national, national, regional and global levels for effective public policy stewardship, leadership and governance of actions on human resources for health.
- 4. To strengthen data on human resources for health, for monitoring and ensuring accountability for the implementation of national and regional strategies, and the Global Strategy.

A labour- market approach

Production of Workforce

- Infrastructure and material
- Enrolment
- Selecting students
- Teaching staff

Inflow/ Outflow

- Migration and Emigration
- Attract unemployed health workers
- Bring health workers back into the health care sector

Maldistribution/ Inefficiencies

- Improve productivity and performance
- Improve skill mix composition
- Retain health workers in underserved areas

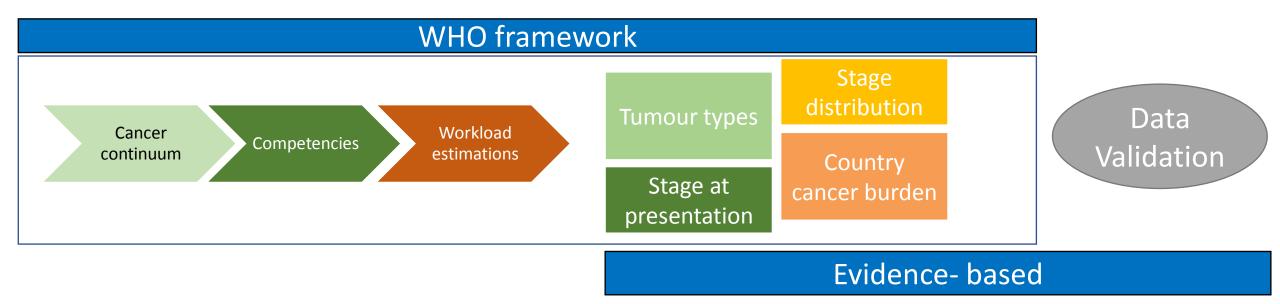

Regulation of private sector

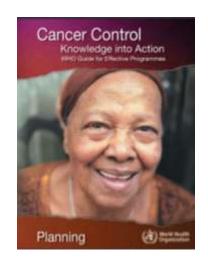

- Manage dual practice
- • Improve quality of training
- • Enhance service delivery

The WHO approach to Cancer workforce

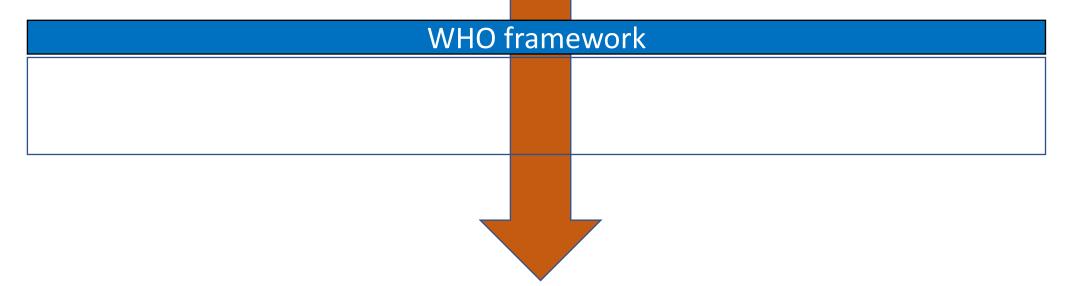

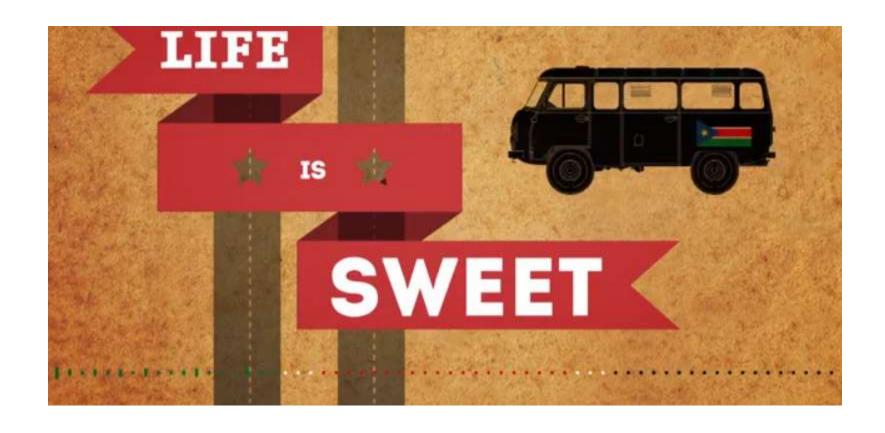

The WHO approach to Cancer workforce

Shape dialogue/inform policies/build tools

What can we do?

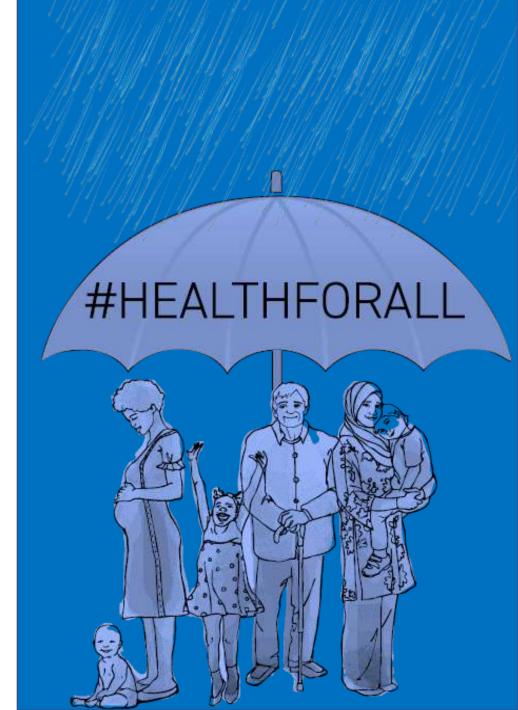

Health Workforce Planning for Cancer

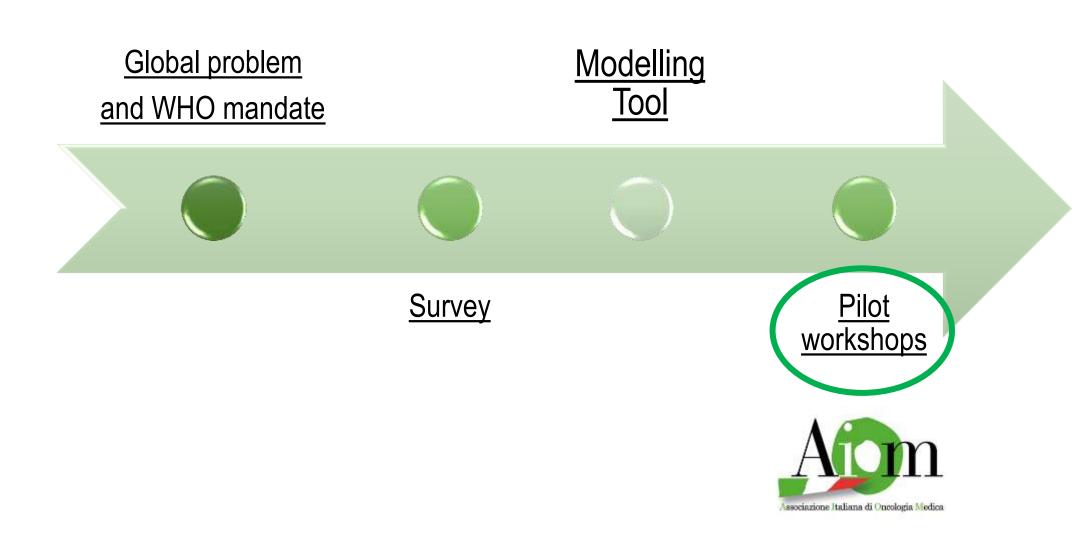

From Global Commitment to Action

The determinant role of WHO Partners:

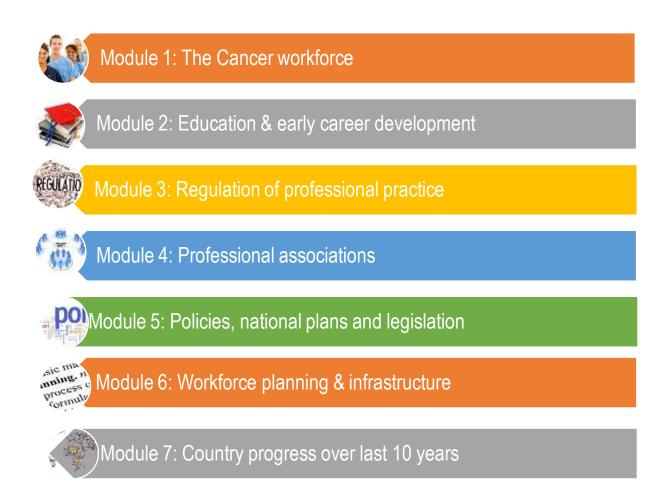

WHO Cancer Workforce Project Components

WHO Workforce Survey in partnership with

Data gathering for a situational analysis to assess the workforce and determine tailored interventions

Key message(s)

 The Shortage of health workforce for cancer is a critical determinant of the performance of health systems to deliver cancer care

 Strategies for capacity- building and scale- up of the Cancer health Workforce are needed to optimize cancer- related outcome

• It's everybody's bussiness, a scientific commitment from technical Stakeholders for a global success!
