

## RATIONAL

In recent times, the treatment of urological neoplasms has undergone an important evolution due to already existing treatments being shaped into lines of therapy for increasingly precocious stages of disease and the offer of new surgical and radiotherapy treatments and drugs, as well as new combinations of different treatments. The meeting provides insight into integrated and multidisciplinary therapeutic strategies, related to urological neoplasms (prostate carcinoma, kidney carcinoma, urothelial carcinoma, penile carcinoma, testicular neoplasms), with respect to the development of therapeutic knowledge and the integration of new therapies that are becoming available. The congress aims to translate both the guidelines and clinical trials results into daily practice, through expert to expert discussion and sharing.

## CME CREDITS

Certificate awarding 10,5 CME credits will be emailed within 90 days after the end of the congress. The following medical sciences have been accredited for this congress: Oncology, Urology, Radiotherapy, Radiology, Nurse

## EDUCATIONAL GOALS

guidelines - protocols - procedures

**APRIL 20th**

- 10.15 Introduction to congress work
- SESSION 1:** Localized prostate cancer  
Moderators: **G. Carrieri, A. Magli, A. Minervini**
- 10.30 Robotic radical prostatectomy: videosurgery  
**F. Dal Moro**
- 10.45 Modern radiotherapy techniques  
**C. Paronetto**
- 11.00 Active surveillance and indication to genetic tests  
**M. Ferro**
- 11.15 Discussion
- SESSION 2:** Locally advanced and high risk prostate cancer  
Moderators: **S. Arcangeli, M. Nicodemo, B. Rocco**
- 11.30 Robotic radical prostatectomy and lymphadenectomy: videosurgery  
**R. Schiavina**
- 11.45 Integration of androgen deprivation therapy with radical radiotherapy  
**F. Matrone**
- 12.00 Adjuvant and salvage radiotherapy  
**B. El Khouzai**
- 12.15 Discussion
- 12.30 Lunch Break
- SESSION 3:** Oligometastatic prostate cancer  
Moderators: **F. Alongi, M. Gregianin, V. Mirone**
- 13.30 Targeted lymphadenectomy: videosurgery  
**H. Van der Poel**
- 13.45 Next Generation Imaging (NGI): changing landscape of prostate  
**L. Evangelista**
- 14.00 The role of Stereotactic Radiotherapy  
**G. Francolini**
- 14.10 Oligometastatic, oligoprogressive, nmCR prostate cancer: the medical oncologist point of view  
**E. Verzoni**
- 14.30 Discussion

**SESSION 4:** Metastatic prostate cancer  
Moderators: **M. Amenta, U. Basso, V. Ficarra**

- 14.45 New treatment options for mCSPC: doublet, triplet and integration  
**M. Maruzzo**
- 15.00 Genetic tests in mCSPS and mCRPC: clinical implications  
**R. Iacovelli**
- 15.15 Advanced mCRPC: how to choose treatments  
**O. Caffo**
- 15.30 Radiometabolic therapy in prostate cancer  
**S. Severi**
- 15.45 Discussion
- 16.00 Coffee break

**SESSION 5:** Penile cancer  
Moderators: **A. Amodeo, A. Bruni, A. Favaretto, C. Trombetta**

- 16.15 Conservative local treatment of penile carcinoma  
**M. Catanzaro**
- 16.30 Penile surgery and reconstruction (videosurgery)  
**G. Garaffa**
- 16.45 The role of radiotherapy  
**A. Bossi**
- 17.00 Medical treatments options for a rare cancer  
**D. Bimbatti**
- 17.15 Discussion

**SESSION 6:** Testicular cancer  
Moderators: **G. Musi, G. Simone, F. Zustovich**

- 17.30 Retroperitoneal lymphadenectomy: videosurgery  
**N. Nicolai**
- 17.45 Biomarkers and genetic implication for testicular cancer  
**P. Rescigno**
- 18.00 HDCT and ASCT: when, how, which results  
**F. Pierantoni**
- 18.15-18.30 Discussion

**APRIL 21st**

- SESSION 7:** High risk non-muscle invasive bladder cancer  
Moderators: **M. Carini, C. Maccagnano, V. Varca**
- 8.30 Intravesical agents  
**L. Di Gianfrancesco**
- 8.45 Systemic therapy for localized NMIBC: what is new?  
**A. Dalla Volta**
- 9.00 Histological and molecular characteristics for risk stratification  
**M. Brunelli**
- 9.15 Robotic radical cystectomy and neobladder: videosurgery  
**A. Porreca**
- 9.30 Discussion
- SESSION 8:** Localized muscle invasive bladder cancer  
Moderators: **W. Artibani, M. Krengli, S. Lonardi**
- 9.45 The role of MRI and conventional imaging  
**V. Panebianco**
- 10.00 Robotic radical cystectomy and ileal conduit: videosurgery  
**A. Porreca**
- 10.15 The role of neoadjuvant treatment for MIBC  
**P. Giannatempo**
- 10.30 Adjuvant treatment in the evolving scenario: which role today?  
**V. Mollica**
- 10.45 Bladder sparing protocols  
**M. Sepulcri**
- 11.00 Discussion
- 11.15 Open coffee station
- SESSION 9:** Metastatic bladder cancer  
Moderators: **C. Modonesi, G. Novara, S. Voce**
- 11.15 The role of Immunotherapy in the maintenance vs second line therapy  
**R. De Vivo**
- 11.30 ADC and targeted therapies: the news coming  
**E. Fantinel**
- 11.45 Is there a role for cystectomy in oligomet bladder cancer?  
**G. M. Busetto**
- 12.00 Discussion

- 12.30 Lunch Break
- Presenter: **A. Porreca**
- 13.30 Robotic radical cystectomy: lessons learned after 20 years of experience  
**P. Wiklund**
- SESSION 10:** Localized and localized advanced renal cell cancer  
Moderators: **D. Bernardi, R. Bortolus, E. Mearini**
- 13.45 Nephron sparing surgery: videosurgery  
**F. Porpiglia**
- 14.00 Focal treatments  
**A. Celia**
- 14.15 Stereotactic Radiotherapy for localized RCC  
**C. Franzese**
- 14.30 Genetics of renal carcinoma: surveillance, risk adapted management  
**S. Zovato**
- 14.45 Radical nephrectomy: videosurgery  
**L. Schips**
- 15.00 Lymphadenectomy  
**A. Crestani**
- 15.15 Perioperative systemic treatment for RCC: a step forward  
**S. Bracarda**
- 15.30 Discussion
- SESSION 11:** Metastatic renal cell cancer  
Moderators: **P. Ditonno, F. Fiorica, V. Zagonel**
- 15.45 How to choose the first line systemic treatment in 2023  
**S. Buti**
- 16.00 Subsequent line of treatment vs treatment modulation  
**C. Ciccicarese**
- 16.15 The role of NGI in renal cancer  
**L. Urso**
- 16.30 The role of Stereotactic Radiotherapy  
**L. Triggiani**
- 16.45 The role of cytoreductive nephrectomy  
**A. Antonelli**
- 17.00 Discussion
- 17.15-17.30 Final Remarks
