

***Thoracic Oncology Padova - TOP5. Impact of practice-changing trials on the multidisciplinary tumor board: Hot Topics***

**18-19 settembre Sala Anziani - Palazzo Comunale  
Padova**

NOME PROVIDER: **OVER S.R.L.** ID PROVIDER: **4187** EDIZIONE N. **1**

NUMERO EVENTO FORMATIVO: **452492**

DATA: **18-19 settembre 2025**

ORARIO: **18 settembre dalle ore 17:00 alle ore 18:30 e 19 settembre dalle ore 9:00 alle ore 17:45**

TIPOLOGIA PRODOTTO: **CORSO RESIDENZIALE**

NUMERO PARTECIPANTI: **100**

OBIETTIVO FORMATIVO: **2 - Linee guida - protocolli - procedure**

NUMERO ORE FORMATIVE: **6**

NUMERO CREDITI: **8**

RESPONSABILE SCIENTIFICO: **Valentina Guarneri, Federico Rea**

VERIFICA APPRENDIMENTO PARTECIPANTI: **QUESTIONARIO A RISPOSTA MULTIPLA, SE ONLINE CON DOPPIA RANDOMIZZAZIONE**

**RAZIONALE**

Lung cancer remains one of the most challenging malignancies worldwide, with continuous advancements in diagnostic and therapeutic strategies reshaping clinical practice. Multidisciplinary tumor boards play a pivotal role in integrating emerging data from practice-changing trials into real-world decision-making, ensuring optimal patient care.

The 5th edition of the Thoracic Oncology Padova (TOP) congress aims to provide a comprehensive update on the latest advancements in thoracic oncology, focusing on how pivotal trials influence daily clinical practice. This year's event will bring together leading experts to discuss crucial topics, including resectable non-oncogene addicted NSCLC, borderline resectable disease, the impact of oncogene addiction on resectability and treatment sequencing, early relapse management, and the role of local treatment in stage IV disease.

Through interactive case discussions, expert lectures, and panel debates, the congress will facilitate an in-depth analysis of complex clinical scenarios, offering a multidisciplinary perspective that encompasses surgery, medical oncology, radiation therapy, and pathology.

By bridging the gap between research and clinical application, TOP 5 Padova will provide attendees with valuable insights to refine their approach to thoracic malignancies, ultimately improving patient outcomes.

### **18 september**

**17:00** Registration

**17:15** Overture: [V. Guarneri](#), [F.Rea](#), [G. Pasello](#), [L. Bonanno](#)

**17:30** Lecture: Practice changing trials in lung cancer: what does really matter in the evolving landscape?

Presenter: [V. Guarneri](#)

Speaker: [S. Novello](#)

17:55 Discussion

18:10 Key takeaways and conclusions

[V. Guarneri](#), [F.Rea](#), [G. Pasello](#), [L. Bonanno](#)

18:30 Closing activities

### **19 september**

**9:00** Introduction to the section format and to the topics [G. Pasello](#), [L. Bonanno](#), [M. Schiavon](#)

**9:20** Topic 1. Resectable stage II-III non oncogene-addicted NSCLC

Clinical case Presenter: [E. Faccioli](#)

Shooters: [G. Pasello](#), [L. Bonanno](#), [M. Schiavon](#)

Clinical case discussion panels: [P. Solli](#), [P. Borghetti](#), [C. Bennati](#)

**10:00** Topic 2. Borderline resectable stage III NSCLC

Clinical case Presenter: [C. Paronetto](#)

Shooters: [G. Pasello](#), [L. Bonanno](#), [M. Schiavon](#)

Clinical case discussion panels: [N. Gaj-Levra](#), [P. Bironzo](#)

**10:40** Expert opinion TOPIC 1&2: overview of clinical trials: practice-changing aspects and concerns [M. Tiseo](#)

**11:10** Coffe Break

**11:30** Lecture: Integrated and holistic approach to rare thoracic cancers

Presenter: [A. P. Dei Tos](#)

Speaker: [M. Alifano](#)

**12:00** TOPIC 3. impact of oncogene addiction on resectability and its timing

Clinical case Presenter: [A. Bulotta](#)

Shooters: [G. Pasello](#), [L. Bonanno](#), [M. Schiavon](#)

Clinical case discussion panels: [L. Voltolini](#), [M. Sepulcri](#), [F. Cecere](#), [F. Calabrese](#), [S. Indraccolo](#)

**12:30** Expert opinion: Practice changing trials in early and locally advanced oncogene addicted

NSCLCs [A. Passaro](#)

**13:00** Lunch

**14:30** Lecture: Role of SBRT on early stage NSCLC

Presenter: [M. Krengli](#)

Speaker: [U. Ricardi](#)

**15:00** TOPIC 4. Early relapse after local treatment in NSCLC: multidisciplinary management in real life

Clinical case Presenter: [L. Belluomini](#)

Shooters: [G. Pasello](#), [L. Bonanno](#), [M. Schiavon](#)

Clinical case discussion panel: [G. Marulli](#), [A. R. Filippi](#), [F. Calabrese](#)

**15:40** Expert opinion: overview of clinical trials: practice-changing aspects and concerns [A.](#)

[Ardizzoni](#)

**16:00** TOPIC 5 Local treatment in selected stage IV disease

Clinical case 1 (OA) Presenter: [M. Tagliamento](#)

Clinical case 2 (WT) Presenter: [A. Leonetti](#)

Shooters: [G. Pasello](#), [L. Bonanno](#), [M. Schiavon](#)

Clinical case discussion panel: [E.A.Rendina](#), [P.Ciammella](#), [S. Pilotto](#)

**16:40** Expert opinion: Local treatment in stage IV disease: how to build evidence? [S. Ramella](#)

**17:00** Lecture (Thoracic Surgery): The new paradigm of surgery in lung cancer: the molecular biology

Presenter: [F. Rea](#)

Speaker: [F. Facciolo](#)

**17:30** Take home messages and adjourn

G. Pasello, L. Bonanno, M. Schiavon

**17:45** Closing activities
