

TOP MASTERCLASS
Turin Oncology Prostate Cancer Masterclass
Torino, 12 - 13 December 2025

Aula Magna Dental School - Via Nizza, 250, 10126 Torino

Friday, 12th December

INTRODUCTION

- 11.00 Registration
11.25 Welcome of authorities | **Paolo Gontero, Umberto RICARDI, Massimo Di Maio, Mario Airoidi**

SESSION 1 - Live surgery

Chairs: Francesco Soria, Antonio Pastore, Alberto Breda, Massimiliano Di Marco

- 11.30 11.45 *Lecture: Towards standardization of lateral approach in radical prostatectomy: are we there yet?* | **Alberto Breda**
11.30 13.00 *Live Surgery 1: SP RARP* | **Simone CRIVELLARO**
11.30 13.00 *Semilive Surgery: PARTIAL PROSTATECTOMY* | **Rafael Coelho** (online)
11.30 13.00 *Semilive Surgery: SP RARP in spinal anesthesia* | **Paolo Gontero**

LUNCH BREAK

SESSION 2 - Diagnostics

Chairs: Lorenzo RICHIARDI, Giancarlo MARRA, Serena GRIMALDI, Marco GATTI

- 13.30 Screening for Prostate Cancer: do we really need it? | **Giovanni Pappagallo**
13.45 MpMRI: any news? | **Riccardo Faletti**
14.00 PSMA beats all | **Matteo Bauckneht**
14.15 Prostate Biopsy: current standard and future directions | **Lorenzo Bianchi**

LECTURE: prostate biopsy device

CLINICAL CASE 1 - Diagnostic challenge

14.30 14.55 Rising PSA and negative MRI | **Rossella Nicoletti**

SESSION 3 - Metastatic disease

Chairs: Massimo DI MAIO, Alberto Bossi, Marcello Tucci, Alan Dal Pra

15.00 Any room for surgery? | **Pawel Rajwa**

15.15 The role of SBRT in omHSPC, focus on the metachronous setting | **Giuseppe C. Iorio**

15.30 Which sequence of treatments in patients with metastatic disease? | **Silke Gillessen**

15.45 BRCA and other molecular targets | **Lorena Incorvaia**

LECTURE TBD

AFTERNOON DEBATE - Any non-farmacological standard in metastatic PCa?

15.50 Radiation therapy | **Alberto BOSSI**

16.00 Theranostics | **Guido Rovera**

16.08 Discussion

SESSION 4 - Localised disease

Chairs: Marco ODERDA, Giuseppe C. Iorio, Steven JONIAU, Simone Crivellaro

16.30 Active surveillance: how far can we go? | **Claudia Kesh**

16.45 Radical prostatectomy: are we improving? | **Bernardo ROCCO**

17.00 The journey of ultra-hypofractionation: five fractions and beyond | **Stefano Arcangeli**

17.15 Focal therapy: the new standard for intermediate risk disease? | **Giovanni Lughezzani**

CLINICAL CASE 2 - Treatment challenge for intermediate risk prostate cancer

17.30 ISUP 2 PCa with MRI-visible disease | **Alessandro Marquis**

PROSTATE CANCER GUIDELINES: What to expect in 2026

17.50 AUA/NCCN Guidelines | **Daniel BAROCAS (Online)**

18.15 End of day 1

Saturday, 13th December

SESSION 5 - High risk disease

Chairs: Giancarlo MARRA, Antonio CARBONE, Claudia KESCH, Carlo INTROINI

- 08.30 Neo- or adjuvant treatment: where are we now? | **Marco ODERDA**
08.45 Retzius-sparing surgery: why not? | **Vincenzo FICARRA**
09.00 Best approach for high risk PCa: aiming for multimodal or starting step by step?
Steven JONIAU

MORNING DEBATE - Lymphadenectomy for high risk disease?

- 09.30 Yes | **Giorgio GANDAGLIA**
09.38 No | **Fabio Zattoni**

09.46 *LECTURE*: current basic ADT options

SESSION 6 - Recurrent disease

Chairs: Cinzia ORTEGA, Daniele AMPARORE, Jochen WALZ, Sara E. REBUZZI

- 10.00 Any rationale for focal therapy? | **Giancarlo MARRA**
10.15 Recurrence after surgery and EAU BCR risk stratification: all that glitters is not gold
Nazareno Suardi
10.30 Androgen deprivation therapy combined with postoperative radiotherapy | **Alan Dal Pra**
10.45 Criteria for BCR: are we improving? | **Giorgio CALLERIS**

CLINICAL CASE 3 - Challenges of biochemical recurrence

11.00 Biochemical recurrence after RARP - PSMA pitfalls | **Serena Grimaldi**

11.15 *LECTURE*: focal therapy

SPECIAL SESSIONS

Chairs: Prof. Massimiliano ICARDI (IT), Prof. Silke Gillessen, Prof. Alberto BOSSI (FR), Prof. Alessandro VOLPE

OUT OF THE BOX - Esou lecture

11.30 Prostate & Kidney Cancer: anything in common? | **Alessandro VOLPE**

EDITOR IN CHIEF LECTURE

11.45 European Urology Open Science & Prostate Cancer | **Jochen WALZ**

BEST OF...

- 12.00 Urologist: best of 2025
12.10 Radiation oncologist: best of 2025 | **Alan Dal Pra**
12.20 Medical oncologist: best of 2025 | **Massimo DI MAIO**
- 12.30 Take Home Messages | **Paolo GONTERO**

The session will give take home messages of the year and highlights most innovative upcoming technologies or trials, partial or definitive results, practice changing or highly likely to change practice in the upcoming future.

RAZIONALE

La masterclass TOP (Turin Oncology Prostate cancer) è un'esperienza educativa immersiva e completa per professionisti della salute interessati ad avanzare le proprie conoscenze e competenze nella diagnosi e nel trattamento del cancro alla prostata.

Nel corso del programma, i partecipanti saranno esposti a tutti gli aspetti della malattia, dalla diagnosi iniziale alla gestione di casi localizzati, localmente avanzati e metastatici. Il percorso formativo è pensato per fornire una comprensione approfondita degli ultimi sviluppi di ricerca e clinici nella diagnosi del cancro alla prostata, inclusi biomarcatori e tecniche di imaging, nonché delle opzioni di trattamento, tra cui chirurgia, radioterapia e terapie sistemiche.

La masterclass TOP prevede anche interventi chirurgici dal vivo e dibattiti, offrendo ai partecipanti un'esperienza di apprendimento coinvolgente e interattiva. I partecipanti avranno l'opportunità di osservare interventi chirurgici in diretta eseguiti da esperti del settore e di partecipare a discussioni e dibattiti sugli ultimi approcci terapeutici.
